Ms. Magalie Roman Salas, Secretary Federal Communications Commission 445 Twelfth Street, S. W. – Room TWB-204 Washington, D. C. 20554

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Re: Ex parte, CC Docket No. 99-200, Numbering Resource Optimization

Dear Ms. Salas:

On Friday, December 10, 1999, Douglas Brandon, James Bolin, Suzanne Toller and the undersigned, of AT&T, met with Yog Varma, Jared Carlson and Charles Keller of the Commission's Common Carrier Bureau and David Furth of the Wireless Bureau. The purpose of the meeting was to discuss number conservation efforts currently underway in the states pursuant to the Commission's waiver orders. The attached material was distributed during the meeting.

Two copies of this Notice are being submitted to the Secretary of the FCC in accordance with Section 1.1206 of the Commission's rules.

Sincerely,

PART I-SECTION II

Page 3

CONFIDENTIAL

It is Critical that the FCC Remain on Track to Issue the NRO Order by the End of the First Quarter of 2000

- National standards are the most efficient and cost effective way to ensure that conservation methods are put in place in all states
- Would enable industry and states to focus efforts on implementation of conservation methods -- rather than their development of state-by-state interim measures
- The longer the FCC takes to act, the more costly and difficult it becomes to unwind the states' interim solutions
- Would eliminate need to act on further waiver petitions

Key Conservation & Administration Issues that Must be Addressed in the NRO R&O

- Pooling -- Guidelines and technical standards, non-LNP carriers exempt; staggered rollouts; no pooling in areas close to exhaust
- Telephone Number Status Definitions and Utilization Survey Format
- Criteria for Initial and Growth Codes
- Thousands Block Management
